

Random Notes

Contradictory reports became rife last week with reference to the election of a Canadian contribution to an international police force in the Middle East.

President Nasir was said to have been the one who refused the contribution to the force because of the name "Queen's," and because of the color of the uniform. Another presumably reliable source, however, is the Egyptian director of England—the object of his treatment and oldest hatred. However, Mr. Pearson, our minister of external affairs, has denied these reports of Nasir's objection to the choice made by the government of its contribution to the force.

Meanwhile, the battalion remains at Halifax. Indeed, on Friday last it was announced from Defence headquarters that the ship was to be delayed at least another week.

It is possible this decision was taken in order that Ottawa might confer with Cairo on the matter? Because of the local situation, the Queen's Rifles, the handling of the situation has been a subject of much controversy. It is suggested, however, that a substitute for the Queen's Rifles, in the form of a Watch, a Scottish regiment located in Montreal—the kilts and spurs are universal favorites, and it is feared that this battalion was a non-permanent organization and the idea had to be dropped.

Furthermore, the question of the despatch of the Queen's came up for discussion in parliament on the Monday of the four day special session. Mr. J. G. Macdonald, P.C., declared that many of the men of the Queen's were over 19 years of age and should not be sent overseas at that age. He also deprecated their being sent insufficiently equipped to do with an air break, and that they were, as such, a contingency army, and drew parallel with events which happened in Hong Kong, when a battalion of the same regiment was overwhelmed because of the lack of food and other necessities of men and horses and other military arms. In conclusion, the general thought that the Queen's R.C.A.F. contingent should accompany the Canadian contribution. And in this Mr. Macdonald is correct, as we observe that the Judo-Bio contribution to the international police force headed at Port St. Louis with heavy machine guns and other equipment. Evidently Marshal Tito's men don't intend to be caught off-guard, if any, when another K.R. develops.

Germany has replaced Canada as the second biggest importer of Mexican goods beyond Mexico, while in most cases Canada has been the largest importer of Mexican goods.

GLORIA LAMBERT

The monthly meeting of the Victor Ladies' Club was held at the home of Mrs. J. F. Lambert, Nov. 14th, with ten members and three visitors present.

The minutes and treasurer's report were read and approved. Mrs. Thompson read an interesting pamphlet from Canadian Consumers Association. The H. Hall made a motion that Mrs. Thompson get more information from Canadian Consumers Association, pay membership fee of \$1.00.

Carried.

It was decided to have a Pot Luck supper and dance on Nov. 23.

R. R. Smyth moved that we have a new record player, and new dance records, for winter entertainment.

Arrangements were made for our annual club banquet, to be held in the home of Mrs. Charlotte Hall on Dec. 18th.

After the meeting adjourned, the hostess served a delicious lunch.

A. Kobal held the lucky number, and was the winner of the surprise parcel. —Co.

Alberta Wheat Pool

Delegates attending the thirty-fourth annual meeting of the Alberta Wheat Pool which commenced in Calgary on Tuesday November 27, were informed by general manager A. T. Baker that the organization had been operating since in the 1935-36 season of \$1,042,897. This was after taking credit for all losses (speculation) totalling \$1,745,227.

Country elevator revenues were approximately the same as the previous year's and terminus revenues somewhat higher, but not yet in the same position as that year's level of \$1,338,278 mainly because of special allowances for the year.

Construction in the past three years has been \$1,338,278 mainly because of special allowances for the year.

THE NEED FOR A GERMINATION TEST

As valuable as it is to millers with respect to grain intended for use in the mill, the germination test is of the utmost importance to the grower.

A combination of early frosts and heavy irrigation water has so far lowered the commercial grade of many districts that has lessened the quality and value of the grain for seed purposes.

Grains Registered or Certified and are of lower, greater or equal to germination requirements. The majority of farmers, however, are largely so grain which they themselves have raised or which they may purchase from a neighbor.

It is one of the types that will need to be tested nearly as much as the other types.

An estimate of some of the first runs of samples tested for the year by the Saskatchewan Grain Commission indicates that approximately 80% of these samples showed slight to serious frost damage or evidence of mold, and that about 10% of the samples showed less than 80% germination.

It is therefore eligible for the milling grade. It is equal to O.A.C. 21 in milling quality and is therefore eligible for the milling grade.

The same Parkland barley is also eligible for the milling grade. It is equal to O.A.C. 21 in milling quality and is therefore eligible for the milling grade.

Alta. Govt. Contract Awards

The Honorable James Hartley, Minister of Public Works, has announced that the erection of the dormitory at the Provincial Asylum Mental Hospital at Cranston, had been awarded to Pacific Construction Company Limited, Edmonton, for the sum of \$258,400.

The new dormitory, providing 112 beds, will replace the structure previously in use. The new building will contain kitchen and similar auxiliary services. Adulteration for the hospital, which care for female patients only, will be continued in the present building while it is remodelled.

Other bids received on this work were from the following firms: Best Construction Company Ltd., Lethbridge, Alberta, \$253,535.00; J. A. Green, 1111-12 Avenue, Edmonton, \$257,189.00; Bennett and White Alloys Limited, 1123-25 St., Edmonton, \$251,569.00.

Other Contractors Ltd., 920 8th Ave. N., Lethbridge, \$250,600.00; Pacific Construction Limited, 1400 20th Street, Edmonton, \$252,888.00.

(Continued from previous column)

And wondering whether or not this is the case in the present building while it is remodelled.

POPE PIEN talks with Father Riccardo Lombardi, founder of the Catholic Action, during the Pope's visit to the Vatican City. The Pontiff, visiting the boundaries of Vatican City, stopped off at the Pontifical Academy of Sciences in the Vatican from his summer residence.

Lloydminster a city?

The distinct possibility exists that Lloydminster may become Saskatchewan's ninth city, or, sitting astride the Saskatchewan-Alberta border as it does at least half a new Saskatchewan city.

The population of the north-western community certainly offers no barrier to its attaining city status. The latest figures show its size to be in the neighborhood of 4,500 people, almost 1,000 more than the minimum requirement.

Moreover, the Lloydminster council is now actively considering the idea and is considering applying for the necessary provincial orders-in-council.

The Saskatchewan local government, based at Regina, has pointed out the advantages and disadvantages of such a move. And it looks as though the change is inevitable, whether it comes this year or next, or the year after that.

Northwestern Saskatchewan is developing and growing, along with the rest of the province. City status is but a sign of the times, albeit a welcome one.

The rest of Saskatchewan will watch with interest the future growth of this community — and with just a shade of human jealousy in its eyes. If Lloydminster, Saskatchewan, will grow as fast as Lloydminster, Alberta, just across the border, the middle of the main street.

A gang of robbers, led to make a killing, broke into a home for the blind at Lloydminster, Saskatchewan, and stole a large sum of money. The police arrested the gang, but the money was not recovered.

European air crews train across Canada under NATO plan

Canada has trained more than 4,150 pilots and navigators from Great Britain and nine other European countries in the last six years under the North Atlantic Treaty Organization plan for training air crews.

At the Royal Canadian Air Force pilot training base at Chatham, Ontario, 150 students are now undergoing training under the scheme, which was introduced to meet the acute shortage of trained air crews. The shortage was caused by the war in Europe. Western military leaders when the North Atlantic Alliance was formed in 1949.

Canada's role in the scheme is to provide training for 1,000 pilots and 1,000 navigators. The training is carried out at the Royal Canadian Air Force pilot training base at Chatham, Ontario, and at the Royal Canadian Air Force navigators' school at St. Catharines, Ontario. The training is carried out at the Royal Canadian Air Force pilot training base at Chatham, Ontario, and at the Royal Canadian Air Force navigators' school at St. Catharines, Ontario.

Canada, which is at present spending \$2,000,000,000 a year for defence, pays the cost of training the NATO air crews. The scheme is carried out on the pattern of the Commonwealth air training plan of World War II which trained thousands of airmen in Canada for the Allied forces.

The students spend more than a year in Canada. They report that the RCAF offers a school of air and sea, where they receive training in flying, navigation, and in the use of the aircraft. They also receive training in the use of the aircraft.

An essential part of the initial training for all but the British pilots is language instruction. For some, this phase lasts less than three weeks, but others may have to study for as long as six months. There are three schools.

After the London course, students are ready to start air crew training. All pilots go to the new primary flying training school at Chatham, Ontario, for training on the primary aircraft. After that, they move on to one of the three flying schools at St. Catharines, Ontario, and Chatham, Ontario, and Chatham, Ontario.

Many families and organizations show great hospitality to the visiting airmen in an effort to make them feel at home in Canada. Canadian defense officials are particularly proud of the air crew training plan. Can senior officer said: "There has been the true spirit of the North Atlantic Treaty Organization has been shown fully illustrated in the intermingling of thousands of individuals representing the countries of the alliance."

The students spend more than a year in Canada. They report that the RCAF offers a school of air and sea, where they receive training in flying, navigation, and in the use of the aircraft. They also receive training in the use of the aircraft.

Your life may depend on the doctor's skill in using the X-ray. The most skilled in the field may not be able to tell you the truth. The only way to get the truth is to get the X-ray. The only way to get the truth is to get the X-ray.

A fourth year student keeps a young visitor amused between bites. The care of children is an aspect particularly stressed in home-making courses. A ten day stay in a public nursery under careful medical supervision is a compulsory part of a course in family education.

The student receives an aptitude or competence certificate after two or three years of study, and on completion of the full four year course, a university degree which entitles her to teach in the primary classes of a domestic science school.

World Happenings In Pictures

FIRST REGINA GAS CUSTOMERS—Mayor Leslie Hammond (center) of Regina and Premier T. C. Douglas (right) are shown here signing applications for the provision of gas in their houses. They became the first Regina citizens to apply for natural gas following the signing of an agreement between the city and the Saskatchewan Power Corporation, October 26. The applications were signed at the Power Corporation's head office on Cornwall street. Standing behind Mayor Hammond and Mr. Douglas are J. E. Moland, gas development engineer and J. B. Barnhart, business manager.

DIGGING BULBS NO LONGER POPULAR—It used to be the garden fashion to dig up Dutch bulbs every spring, dry them and plant them again in the fall. Not so today. The simplest way to grow bulbs in Canada now is plant them deep, let them grow and bloom for three years, then dig them up and discard them. Bulbs are cheaper today than ever before and the average gardener simply hasn't the time to spend digging, cleaning, drying and so on. A small investment allows big returns by digging deep and leaving the bulbs for several years.

BOUND FOR PALESTINE—Five Army majors have left Ottawa for United Nations headquarters in New York City prior to joining the United Nations Peace Supervisory Organization in Palestine. They are, clockwise from bottom left: Major Scott G. Peterson of Calgary, Ont.; Colin G. Parrott, Montreal; Charles A. Van Allen, Ottawa, Ont.; Keith Elliott, Toronto; and Leonard M. Morgan of Montreal and London, Ont.

She's playing safe by having her share checked for tuberculosis. Christmas Seals help pay for your tuberculosis association's efforts to find unsuspected cases of TB. The 1958 Christmas Seal Sale is now being conducted by TB associations throughout the country.

OFFICER CADETS LEARN—Officer cadets in today's regular army are especially given orientation in how the organization works. In their first summer at College Militaire Royal de St. Jean the youths are taken on a cross Canada tour of military establishments. Here three cadets fly above Alton, Ont., as they see how the army drops heavy supplies by parachute. Left to right are: Capt. R. Simpson, Vancouver; J. T. R. Henry, Cap-de-la-Madeleine, P.Q.; M. Ross, Brantford; Scott, John, N.B., and J. E. Dufresne, Shawinigan Falls, P.Q.

—Canadian Army Photo

SHATTERED GLASS, SHATTERED DREAMS—In Budapest, Hungary, broken windows offer mute evidence of the Russian fighting against German troops and Hungarian rebels. For brief hours, it appeared that the rebels had won their freedom from Soviet domination. Russian might has crushed that illusion, and terror and mass executions have swept through the scarred capital. The shattered windows will be easier to replace than the shattered dream.

SPATZ BEFORE YOUR EYES—A new German midsize car, the "Spitz," features a spacious box for easy entry and exit of the passenger. Exhibited at the International Berlin and Motor Show in Frankfurt, Germany, the Spitz—meaning Sparrow—has a top speed of about 47 miles per hour. The car has four gears with one reverse, hydraulic brakes and a two-gear power body. The Spitz will sell for about \$100.

THE SLACK, SMOOTH LINE in swimwear with more over-all is evident in designs for recent and cruise wear. African colors in vibrant print are blended (left) in cotton slacks with built-in machine sewing in halter ties. This suit has separate, strapless swimsuit (top) for women (left) and women (right) of different heights and statures. Yarns have added machine and sewing fruit.

LONG LONELY RIDE—On a rainy country road, a group of peasants ride towards Magyars, Hungary, to attend the funeral of a man that his parents killed there during the opening against Communist rule. Hugs crowd from nearby areas gathered in Magyars to mourn victims of the insurrection.

WOODEN SOLDIERS NEVER DIE—They're just stored away. Standing at attention, though facing in various and sundry directions, these wooden soldiers await a human-sized guard. The tall blackheads are waiting shipment to another building where they will add a happy martial air to a children's store in Paris, France.

Fishers man outboat of Vikings

How to keep the young girls of a block in a problem three days for the residents of Capri, a block of fishermen island in the Atlantic 15 miles from the port of Kristiansund.

At last week, six young girls of marvellous age had deserted the island for the bright lights of the mainland, and at the same time the island was threatened with being almost impossible to keep them there.

In spite of hardships and lack of comfort, a small number of the working fishermen men still stayed on Capri, a mixture of Vikings and Norwegians.

These women have been out of a group of 60 men and small islands and 120 women and 100 children, the "municipality" — undoubtedly the best feature of the island. The total ground area, all of it small land, is 0.19 square miles, but the inhabited land measures only 0.11 square miles.

At the place the island reaches a height of more than 25 feet where sea level. During winter storms, they are lashed and washed by Atlantic waves and more than once in the history of Capri the houses have been washed away and built up again.

Apart from the lightning heaped on the island, the sea is the life of the islanders. They are not fishermen, but the sea is the life of the islanders. They are not fishermen, but the sea is the life of the islanders.

They have been, a peaceful and happy island. They bring in the fish, and the sea is the life of the islanders. They are not fishermen, but the sea is the life of the islanders.

The mayor and local council of 12 men, elected on the Labor Party ticket, had no more votes. There is no church on the island, and there is no school. The fish, water, no rainwater has to be collected in large casks for drinking purposes.

The population, nearly 300 people in 1934, has dwindled today to only 125, men, women, and children. Houses available.

There are no motor vehicles on Capri. There are no motor vehicles on Capri. There are no motor vehicles on Capri.

There is a post office on the island, and there is a school. The fish, water, no rainwater has to be collected in large casks for drinking purposes.

You cannot even get a good walk. The sea is the life of the islanders. They are not fishermen, but the sea is the life of the islanders.

Nonetheless, there are quite a number of houses vacant on Capri. One could buy a well-built, two-story wooden house for 400,000 kroner (1934). But no buyers want the houses.

The authorities, however, had not abandoned the idea of making it a tourist resort. Recently, a new automobile hotel, which would be built on the island, the intention had to make it a tourist resort.

With the help of the islanders, the intention had to make it a tourist resort. Recently, a new automobile hotel, which would be built on the island, the intention had to make it a tourist resort.

What is the future of the island? The intention had to make it a tourist resort. Recently, a new automobile hotel, which would be built on the island, the intention had to make it a tourist resort.

On the Side: z. V. Darling has been reportedly said that "Paris is a woman's town." How true it is, thinking that will make the life of a female agent in Paris, the French capital. To be sure, it is a woman's town.

George Fitz has a "husky" hair. At this interestingly appointed business establishment, which has been established in the same place as a beauty shop, the intention had to make it a tourist resort.

What is the future of the island? The intention had to make it a tourist resort. Recently, a new automobile hotel, which would be built on the island, the intention had to make it a tourist resort.

Manitoba to initiate Parkway meeting

Manitoba's highway department will take the initiative in arranging a meeting of Manitoba, Ontario and Minnesota engineers to discuss connections on the Winnipeg-Parkway, Hwy. R. D. 10, between the two provinces.

Discussions would centre around the road and the location of the link-up with Manitoba if such a link-up is decided. The Manitoba highway department is approved by the provincial government.

The engineers would also go into the details of the road, including the location of the link-up with Manitoba if such a link-up is decided. The Manitoba highway department is approved by the provincial government.

The Manitoba extension would run from the highway to the southeast corner of the province, about 20 miles from the border with the United States.

Mr. Robertson said the province has invited the Manitoba Parkway Commission, representing all the states along the great river as well as Ontario and Manitoba to hold the 1935 annual convention in Winnipeg.

He said the Parkway was vital to the province. It is a link-up with the United States, and it is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.

The link-up with the United States is a link-up with the United States. The link-up with the United States is a link-up with the United States.
